- **Processor: 200 MHz or Faster**
- **RAM: 64MB or better**
- **Monitor: VGA Supporting 16 bit color or better**
- **40MB free disk space for installation**
- **5MB free space for permanent use; 15MB recommended**
- **CD ROM and 3.5" Floppy Drive**

PRODUCT FEATURES

- Import text Wizard - automatically guides you through the process of importing data or text in ASCII format
- Print multiple label designs on a sheet of labels to meet the label needs of more than one department or business unit
- "Lite Editor" an easy, yet sophisticated design tool that allows adjustments to colors and font size without returning to the design process
- Available as a "stand alone" or network version
- Comes with an ever-increasing library of label designs to match industry standard color coding systems
- Unlimited number of label designs supported
- Comes with an Inventory Management Control Disk (IMC) to help monitor use of labels and ink and insure timely reorder

ADDITIONAL FEATURES AND BENEFITS

- Unlimited number of label designs supported
- Logos & Images – new functionality which allows you to add logos, trademarks, corporate identity marks or other images to your designs. The following image files are supported.
- Data Grid – new functionality allows new records to be added without having to use the down-arrow key. Plus, vertical and horizontal scroll bars have been added and a multiple select option to accommodate multiple record deletion
- Sequence Generator – new functionality which allows you to generate a series of incremental numeric sequences
- Allows importing of data
- Prints bar codes
- Accepts ANY Intaglio label design created by Colorflex or your Colorflex Dealers
